Assignment 2

Class (Group) Number: 37

Name:

Obi Dabeluchi

Student Number:

200487764

Submitted Files:

1. Login Page
2. Sign-Up Page.
3. Topic List Page
4. Create Topic Page.
5. View Note Page
6. Grant/Revoke Access Page.

Explanation:

- **Login Page:** this page allows the user to enter their login details in order to login to the website
- **Sign-Up Page:** this page gathers the necessary information to create a new account it requests an email address, a screen name, an avatar image or graphic, and a password.
- **Topic List:** this page is displayed after a user logs in. It lists the topics the user has created and those they can access. Each topic displays: title, date/time created, date/time of the last contribution, total number of notes, buttons to view notes and manage access and "Create New Topic" button is also included on the page.
- **Create Topic Page:** this page includes a form for creating a new topic. It should have a field for the user to enter the topic name and a button to submit it.

- **View Note Page:** this page, accessible from the Topic List Page, displays detailed information about the selected topic. It should show: the topic title, the date/time it was created, the date/time it was last edited, all notes for the topic should be listed in the order they were added. Each note includes: the text content, the date/time it was added, the contributor's screen name and avatar, at the bottom, a form should allow the user to add a new contribution to the topic.
- **Grant/Revoke Access Page:** this page is accessible from the Topic List Page and shows the title of the selected topic. It displays a list of all users with accounts in the system, including their screen names and avatars. Each user will have a checkbox to grant or revoke their access to the topic.
